# Repricing

- Currently working through the execution of a number of repricing batches in our simulation environment;
  - Analysis currently underway; including validation of prices and completion of price materiality assessments.
- Current expectation; repricing publication in production shall commence the week beginning the 18<sup>th</sup> January 2021;
  - The materiality assessment for the first period will be concluded and published in the week leading up to this.
  - Repricing shall then occur on a weekly basis, with reports intended to be published each Thursday.
  - An updated Repricing calendar shall be published in the new year; detailing the schedule for the first number of weeks.
