

East West Interconnector Access Rules Workshop

REGISTRATION

EirGrid is pleased to invite you to our upcoming East West Interconnector Access Rules workshop on **Monday 11th October 2010 @ 12pm**, in Croke Park, Dublin.

The East West Interconnector is a 500 MW regulated HVDC link which will be fully compliant with all EU legislation and provide an increased opportunity to market participants to trade electricity between the Single Electricity Market (SEM) on the island of Ireland and British Electricity Trading and Transmission Arrangements (BETTA) market in Great Britain. The East West Interconnector is scheduled to be operational from Q3 2012.

The purpose of this workshop is to inform relevant stakeholders of the progress to date of the East West Interconnector development, to initiate discussion on the East West Interconnector Access Rules, and to provide all stakeholders with an opportunity to input into the development of these Rules.

Agenda:

12pm	Registration and Light Lunch
1pm	Session 1: Introduction and updates
1:45pm	Session 2: Access Rules and Regional Integration
3:30pm	Session 3: Auction Platform
5pm	Post Workshop Drinks reception
