# Withdrawal Notification

## Mod_03_24 Update of Difference Charge Calculation Logic

### 1    PROPOSER UPDATE

This Modification seeks to change the calculation of QAOLF', which is subsequently used in the calculation of difference changes to incorporate undelivered quantities into the calculation. However, difference charges are calculated based on traded quantities and therefore undelivered quantities should not be included in the calculation of QAOLF per F.18.5.2 of the Code.

QAOUNDEL was intentionally omitted from the calculation of QAOLF' as they are undelivered quantities which are not considered traded volumes and as such should not considered within the calculation of difference charges.

### *Decision*

- The Proposal was withdrawn.
