SEM Committee Decision for the Regulatory Authorities in relation to Mod_11_21 (Final Recommendation FRR_11_21)

Dear Esther,

On 22 July 2021, the Modifications Committee submitted its Final Recommendation Report (FRR) with regard to Modification Proposal Mod_11_21 'Generator, Supplier and Renewable Seat' in accordance with Paragraph B.17.18.1 of Part B of the SEM Trading and Settlement Code (TSC). The Modification Proposal Mod_11_21 was submitted to the Modifications Committee by the CRU and UR on 14 April 2021 and discussed and voted on at Meeting 105 on 17 June 2021.

This Modification aims to introduce a new Supplier Seat and a new Generator Seat to the Modifications Committee, with a Renewable Generator Participant to be appointed to this seat by the Regulatory Authorities using the provision under B.17.3.4 for an initial term of two years. Following this period, the seat will be reviewed with a view to enduring changes being proposed.

The Regulatory Authorities note that this Modification was recommended for approval on a unanimous basis by the Modifications Committee.

Considering the above, and in accordance with Paragraph B.17.20 of the Code, the SEM Committee direct that a Modification, as set out in Appendix 1 of FRR_11_21, is implemented on a Settlement Day basis with effect from one Working Day after this letter is issued.

Yours sincerely,

Grainne Black
