<b>Explanation of Proposed Change (mandatory by originator)</b>			
<p>Currently, Part B of T&amp;SC, Appendices and Agreed Procedures provide that the registration, cancellation and amendment of Letters of Credit (LoC) and Demand Guarantees should be communicated by SWIFT.</p> <p>SWIFT is a messaging network that Financial Institutions use to transmit information and instructions through a standardised system of codes. It is typically used by Banks.</p> <p>Non-bank Financial Institutions, e.g. Insurance Undertakings do not necessarily use SWIFT.</p> <p>Therefore, the code needs to be modified to accept alternative forms of communication to be used for the registration, cancellation and amendment of Demand Guarantees.</p> <p>The alternative forms of communication in the amendment is E-mail.</p> <p>Communication for LoC's will continue to be done via SWIFT only.</p> <p>In addition, following a legal review of the definition of an Insurance Undertaking has recommended the definition should be slightly amended to ensure it is consistent with the definition of a Credit Cover Provider for a Letter of Credit.</p>

**Modification Proposal Justification**

*(Clearly state the reason for the Modification)*

This change ensures that the code can facilitate the use of a Demand Guarantee as collateral with alternative forms of communication provided for in addition to SWIFT.

**Code Objectives Furthered**

*(State the Code Objectives the Proposal furthers, see Section 1.3 of Part A and/or Section A.2.1.4 of Part B of the T&SC for Code Objectives)*

The modification above furthers the following aims of the code:

(b) to facilitate the efficient, economic and coordinated operation, administration and development of the Single Electricity Market in a financially secure manner;

(d) to promote competition in the Single Electricity Market;

(f) to ensure no undue discrimination between persons who are parties to the Code; and

(g) to promote the short-term and long-term interests of consumers of electricity on the island of Ireland with respect to price, quality, reliability, and security of supply of electricity.

**Implication of not implementing the Modification Proposal**

*(State the possible outcomes should the Modification Proposal not be implemented)*

Market participants will not be able to use a Demand Guarantee as a form of collateral therefore precluding a secure, liquid source of credit cover to market participants.

It will also reduce competition among credit providers ultimately disadvantaging the consumer.
