

20th April 2023

Withdrawal Notification

Mod_18_22 Mitigating risks of Settlement of Units running on secondary fuel in security of supply scenarios.

1 MODIFICATIONS COMMITTEE MEETING 116 MINUTES

The Proposer provided an update on this Modification Proposal advising that the original and subsequent proposals were not implementable, and the settlement issues were discussed with the RAs. It was noted that there was a view to expand the existing documentation and procedure.

The RAs confirmed that the next step would be to publish a consultation to review secondary fuel test cost recovery and secondary fuel dispatch during, for example, a gas emergency. The RAs advised that this consultation would be published before Meeting 117 on 22nd June 2023.

The Proposer confirmed that, based on this, they were satisfied that this Modification Proposal could be withdrawn.

Decision

- The Proposal was withdrawn.
